Information Technology (IT) is the application of computers, software, and telecommunications equipment to store, retrieve, transmit, and manipulate data. It is an essential part of our daily lives and is used in various fields, including education, healthcare, finance, entertainment, and communication.

In Grade 12 IT classes, you will learn about the fundamental principles of computing, including programming, database management, networking, and security. You will also learn how to analyze and solve problems using various tools and techniques.

The class will help you develop critical thinking skills, creativity, and teamwork, which are essential in today's job market. Moreover, it will give you a solid foundation for further studies in computer science or related fields.

Class day & time – Saturday 10.30 am to 12.30 pm

How to watch the recordings after purchasing the class

The screenshot displays the Farad e-learning platform interface. On the left is a navigation sidebar with options: Home, My Classes, My Courses (highlighted in blue), My Connections, My Discussions, My Photos, and My Documents. An arrow points from a text box to the 'My Courses' button. The main header shows the Farad logo, 'All Classes', 'All Courses', and user profile icons. The user profile section for 'Sivaranjini' is visible, including the Farad logo and the text '@sivaranjini • Joined Oct 2022 • Active now'. Below the profile are tabs for 'My Courses' and 'My Certificates'. The main content area shows a grid of course cards. A text box with an arrow points to the first card, '2024 A/L Theory I (English medium) March'23'. Other cards include 'O/L (2022) Science Rapid Revision...', '2023 Revision and Paper Class Feb'23 IS...', and '2023 A/L Physics Revision and Paper...'. Each card displays the course title, instructor name, number of lessons, completion status, and last activity date.
